STAT [redacted] (OCL) called to say our

revised draft to OMB on the Stevens'

bill was sent as written.

He also said the next item was to

get something back to Senator Roth. He

stated he was going to draft something

combining the essence of our Hockman letter

on why we need a special retirement system

and include portions of the comments we

provided to OCL on the Stevens bill. He will

forward the draft to us. (I did not at

this time say anything about Bob's comment

on briefing Roth.)
